CUT5 SEAMLESS GLOVE

55M-Y

EN 388: 20XX

454X

EN 407:20XX

X2XXX

Description

Dromex® 55M-Y consists of a 100% Dromex® Cut5 fibre is an ambidextrous, lint free, UV (Ultraviolet) resistant, washable with a reinforced thumb and index finger crotch for extra wear. Provides protection against cut, abrasion, and heat. Used in industries such as automotive, assembling, packaging, warehousing (indoor and outdoor), clean rooms and mining.

Provides contact heat protection of up to 15 seconds and at a level 2 contact temperature of 250°C.

The seamless knit with elasticated cuffs, provides additional comfort and support, whilst allowing air circulation to keep hands dry.

Special Instructions

Although the manufacturer has examined these gloves under the system for ensuring quality of production by means of monitoring and inspection, we recommend that all gloves should be thoroughly inspected before use to ensure no damage is present.

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer. The gloves and information contained herein are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment. Actual conditions of use cannot be directly simulated in a test environment, therefore it is the responsibility of the user and not the manufacturer or supplier to determine the suitability for intended use.

Compliance & Conformity

Complies with the requirements of CE type examinations EN 420 for innocuousness, EN 388 for compliance with directive 89/686/EEC Mechanical Risks (4,5,4,X) and EN 407:2004 Thermal Risks for Heat and Flame. Quality System conforms to ISO 9001:2008 and environmental management system ISO 14001:2015 system certificates or acceptable equivalent.

Specifications

Style: Elasticated with a reinforced thumb and index crotch
 Liner: 100% Dromex® Cut5 fibre
 Palm: 1.6mm ± 5 %
 Back: 1.6mm ± 5 %
 Cuff: 100% Dromex® Cut5
 Mass: ± 86 g per pair

Packaging, Storage & Obsolescence

Packed 12 pairs per bundle and 120 pairs per carton for shipping. Store in a cool, dry place and out of direct sunlight and UV light. Stored correctly, the gloves physical properties will not change for up to three years.

Cleaning & Maintenance

Gloves should not be left in a contaminated condition if re-use is intended especially if potential hazards exist. Before removal from the hands excess contaminant should first be removed from the gloves. Should this not be possible, it is advisable to ease left and right hand gloves off using the gloved hand and remove the gloves without the contaminant contacting the bare hands.

The gloves may then be decontaminated as indicated below:

In order to maximise the glove life cycle, we recommend the mildest possible cleaning conditions in terms of temperature, chemicals and cycle duration.

Due to a wide variety of possible constructions and combinations with other materials we recommend to always consult your professional cleaning service to determine the best suitable cleaning method.

Disposal

All industrial waste should be disposed of correctly according to local regulations and good disposal practice. Gloves should be disposed of considering the hazardous substances they were used for. Please consider recycling.

Sizes Available

Code	Size	Palm Length	Cuff Colour
55M-Y-7	XS/S	95mm (±2mm)	Red
55M-Y-8	S/M	100mm (±2mm)	Yellow
55M-Y-9	M/L	105mm (±2mm)	Brown
55M-Y-10	L/XL	110mm (±2mm)	Black

* As per the EN420 standard, actual measurement of gloves are determined by the manufacturer, taking into account the behaviour of the glove material, its thickness (such as leather gloves, PVC gloves etc), elasticity and the intended use.

* Sizing charts only serve as a guide. Sizes and measurements are for reference only. In order to make an informed decision, always try on the gloves as each glove features a unique construction to accommodate a wearer's preferences.

Measurement Guide

Materials

1. Reinforced thumb & index finger crotch
2. Dromex® Cut 5 fibre
3. Elasticated cuff
