Packaging, Storage & Obsolescence

DG-NitroShield gloves packed in a box of 100 gloves and sold as 10 boxes in a carton.

It is recommended to store gloves in dry conditions and at ambient temperatures between 10°C and 30°C away from direct sunlight.

Cleaning & Maintenance

- These are disposable gloves and designed for single use. They must be disposed off immediately after use.

Sizes Available

Code	Size	Palm Length
NITS-8	S	85mm (±3mm)
NITS-9	M	95mm (±3mm)
NITS-10	L	105mm (±3mm)
NITS-11	XL	115mm (±3mm)

* As per the EN420 standard, actual measurement of gloves are determined by the manufacturer, taking into account the behaviour of the glove material, its thickness (such as leather gloves, PVC gloves etc), elasticity and the intended use.

* Sizing charts only serve as a guide. Sizes and measurements are for reference only. In order to make an informed decision, always try on the gloves as each glove features a unique construction to accommodate a wearer's preferences.

Measurement Guide

Shelf life

Stored correctly, the gloves physical properties will not change for up to three years.

Disposal

Gloves that are damaged and/or out of service must be disposed of correctly according to local regulations and good disposal practice. Gloves should be disposed of considering the hazardous substances they were used for. Please consider recycling.

Description

Dromex® Nitro Shield are disposable Nitrile gloves designed to protect the hands when in contact with mild chemicals, bacteria, fungi, viruses and food products.

These gloves feature the following:

- They are lightweight yet strong and due to its construction provides comfort and dexterity
- They are powder free and made from 100% Nitrile which prevents allergies
- They are food safe and chemical resistant
- Includes a beaded cuff for ease of putting on and taking off, whilst offering drip protection for the forearm
- Biodegradable which breaks down in landfills easily
- Ambidextrous and can be worn on either hand

These gloves are suitable for use when working with mild chemicals, inspections, pharmaceutical, dental, veterinary applications and non-sterile medical (includes COVID-19), food handling (canteens, food manufacturing) janitorial and maintenance.

Special Instructions

Although the manufacturer has examined these gloves under the system for ensuring quality of production by means of monitoring and inspection, we recommend that all gloves should be thoroughly inspected before use to ensure no damage is present.
